

WHAT IS THE AUSTRALIAN PACKAGING COVENANT?

Signet's journey towards the 2025 APCO National Targets.

The **Australian Packaging Covenant (APCO)** is a not for profit, co-regulatory organisation that is working closely with the government and industry bodies to **reduce the impact of packaging on the environment**.

Their priorities are to establish improved **recycling targets**, establishing more considered **packaging design** and **sustainable alternatives**, and **minimising waste**.

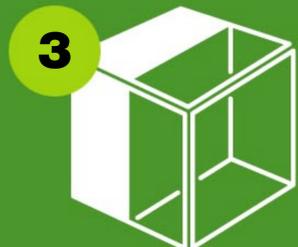

2025 APCO NATIONAL PACKAGING TARGETS

1
100% reusable, recyclable, or compostable packaging

2
70% of plastic packaging being recycled or composted

3
50% of average recycled content included in packaging

4
The phase out of problematic and unnecessary single-use plastics packaging

HOW SIGNET IS WORKING TOWARDS THE APCO TARGETS

As a signatory to the Australian Packaging Covenant, Signet is working towards the 2025 National Packaging Targets, which focus on sustainable material sourcing and manufacturing, right through to end-of-life product disposal.

We have provided countless Signet customers with environmentally friendly products and packaging optimisation solutions that have helped reduce their impact on the environment.

Click one of the topics below to find out more about how we can help you achieve a more sustainable workplace.

ECO-FRIENDLY PACKAGING SOLUTIONS

[SEE RANGE](#)

Each product within our eco-friendly range has characteristics such as compostable, recyclable, biodegradable, reusable and/or made from recycled or renewable resources.

- compostable
- recyclable
- biodegradable
- re-usable
- made from recycled or renewable sources

Using our knowledge and expertise in stretch film, industry insights, wrapping equipment and load containment, we offer a Tertiary Packaging Optimisation (TPO) program to provide a structured improvement process to deliver tailored solutions to our customers.
