

Streamlining Warehouse Storage Costs

Reduce Travelling Time

Reduced movement = increased efficiency.

Keep regularly used items near your despatch area.

Put replenish stock above picking stock.

Heavy products at the bottom.

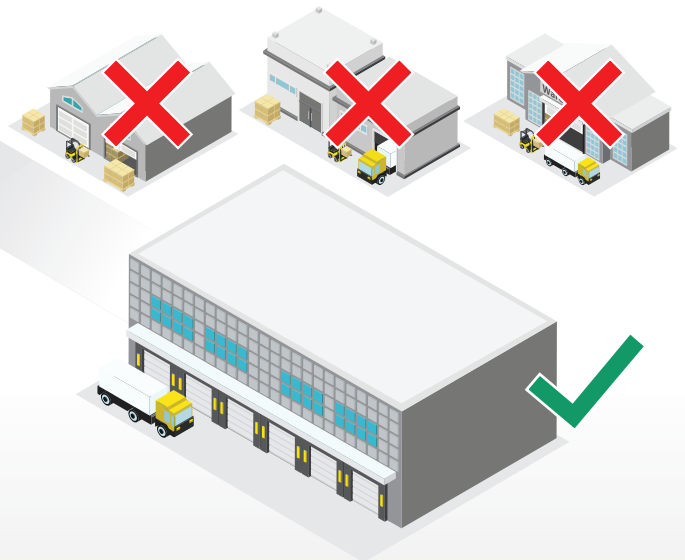

Reach Safely

Reduce the risk of accidents & injuries by working between your hands & knees. Always use an order picker for higher items.

Consolidate!

Fewer warehouses = less rent & electricity, and fewer resources & expenses.

Purchase Patterns

Regularly review your supplier lead times and customer purchasing patterns so you can accurately determine the right level of safety stock.
