

DO YOU ROLL OR FOLD?

Hand towels that is, what were you thinking of? Believe it or not, the choice is an often-overlooked inefficiency within workplaces and the type you choose can make all the difference. Signet's here to give you the helping hand (you didn't know you needed) in choosing the right hand towel for you.

ROLLED VS FOLDED

Rolled hand towels give you the freedom to choose the length of hand towel you need.

Consequently, they are more suited to environments where speed and accessibility are a priority, such as warehouses, manufacturing, or hospitality.

Folded hand towels are ideal for bathrooms and kitchen areas where there is limited space available. Also, as they are dispensed one sheet at a time it can help you manage waste and overuse.

TIP! Signet only supplies and recommends Multifold hand towels. Multifold towels or Z fold towels have an extra fold that create a 'Z' shape, designed to open the towel when dispensed and only dispense one towel at a time to minimise waste.

WHICH HAND TOWEL IS RIGHT FOR YOU?

	QUANTITY	FOLDED WIDTH	SHEET SIZE
 <p>Signet's Own Compact Hand Towel</p> <ul style="list-style-type: none"> Has the smallest footprint of the folded towel range Perfect for low traffic areas or when space is limited.
