

QL-400XT

WORK SMARTER

Lantech **QL-400XT** is the first intelligent, intuitive and instructional semi-automatic stretch wrapper. Keep your driver on the forklift and eliminate the on and off to cut and attach film.

ROBUSTNESS

Hundreds of machine improvements based on 25 years of Q machine warranty experience. Wire connections, motors, reducers, and sensors are improved. Plus new controls.

PRODUCTION REPORTS

Simple diagnostics and fault tracking that make problem areas visible.

LOAD GUARDIAN BENEFITS

Load Guardian is Lantech's control system that creates, maintains and delivers the right containment force for safe-to-ship loads.

INTELLIGENT SET-UP

Intuitively guides users through set up to calculate the right containment force.

WRAP APPS

Customisable wrap settings eliminate the need for operators to make machine adjustments.

HELP

Instructional content for countering stretch wrapping problems.
