

IT'S AS CLOSE TO MACHINE WRAPPING AS YOU CAN GET BY HAND.

The Signet Bolt combines an innovative hand wrapper and a powerful 5um pre-stretched film, to deliver a consistent, machine-like wrap tension and a more sustainable film solution. The ultra-lightweight wrapper and easy to use tensioning system makes achieving a perfectly wrapped pallet every time a sure thing... **so you can wrap like a machine.**

Consistent Wrap Tension

The Signet Bolt's easy to use tensioning system helps you achieve consistent wrap tension every time.

Plastic Reduction

The advanced 5um pre-stretched film provides incredible pallet stability and protection while using significantly less film.

Improved OH&S

The ergonomic, ultra-lightweight design of the Signet Bolt wrapper reduces wrapping fatigue and injuries.

SIGNET BOLT TIPS

Loading

Load the film onto the base of the dispenser and rotate knob at the top anti-clockwise until the film is secured in place.

Increase Tensioning

To increase tension, rotate the knob at the top of the dispenser anti-clockwise until the desired tension is achieved.

Decrease Tensioning

To decrease tension, rotate the knob at the top of the dispenser clockwise until the desired tension is achieved.

SPECIFICATIONS

Physical Property	Specification
Film Thickness	5um
Film Width	380mm
Film Length	480m
Film Weight	0.86kg
Core Weight	0.12kg
Dispenser Weight	0.63kg
Magnet Weight	0.17kg

Wrapping

Scrunch the end of your wrap when you finish wrapping to easily find the start of the roll next time.

Roping

For extra load containment, after wrapping your pallet turn the wrapper 90 degrees and apply the roped film to the top of the pallet.

Storing

The Signet Bolt comes fitted with magnetic fasteners and a stand to make storing the Bolt easy!
