

Customer Case Study

EB Games

Five years on from introducing Signet’s custom security and clear packaging tape to the mix, EB Games has significantly improved their supply chain efficiency and saved \$47,000 annually.

EB Games opened its first store in 1997 in Miranda, NSW, and has since become Australia’s largest video game and entertainment software retailer. With over 450 stores across Australia as well as over 80 Zing Pop Culture stores, EB Games has gained, as gaming terminology goes, a ‘AAA’ reputation within the industry.

Over five years ago, EB Games turned to Signet to help them avoid transit theft and tampering by creating a custom security tape that was unique to the market. The security tape needed to serve four main purposes: show signs of tampering, incorporate their company colours, be highly visible in transit, and help with internal processing.

EB Games packages must successfully navigate each stage of the supply chain tamper-free to reach their destination; the customer’s hands.

“We have a loyal following of customers who are super passionate about our products, so we do everything we can

to ensure they are received in mint condition.” – Brock Johnson, EB Games Administration Manager.

Signet’s Custom Security Tape is the first line of defence for EB Games and is used across all their distribution channels, including the 1,000 shipping cartons picked to order every day. The custom tape creates a more visual distribution channel and helps team members easily distinguish cartons that have been opened.

“Transit theft is a real risk in the gaming industry, so it’s a necessity for EB Games to be on the ball with their security processes.” – Georgia Vincent, Signet Senior Corporate Account Manager.

The security tape is produced in two colour variations which helps staff identify what’s inside the cartons without having to break the seal. The implementation of custom security tape has reduced the downtime created by repacking and sorting through tampered boxes.

“Signet’s tape solutions have helped us see great results. Their custom-made security tape has reduced the risk of theft for EB Games and increased our supply chain efficiency.” – Brock.

EB Games has also experienced significant cost savings by switching to Signet’s Own Clear Packaging Tape, which has proven to be a reliable go-to for sealing cartons and general warehouse use.

“Switching to Signet’s packaging tape has saved us \$1.18 per roll, equating to \$47,000 of savings last year alone.”

Signet is proud to support EB Games and over 60,000 other Aussie ventures.

Customer Case Study

Different

drop.

Artisanal and fine wine specialists, Different Drop, are shaking up the vino-sphere. Since switching to Signet's eco-friendly packaging, they have been able to eliminate plastic, improve brand perception, and increase warehouse efficiency.

The self-proclaimed wine 'geeks' duo; Brett Ketelbey and Tom Hollings, endeavoured to find Australia's best artisanal wines and bring them to the table for wine lovers across the country to enjoy. When a business is founded on passion, it booms. With that in mind, it's easy to see how Brett and Tom have gone from selling wines out of their garages to being dubbed one of Australia's best wine clubs by Boss Hunting in March 2023.

When the business was founded in 2013, the pair knew from the get-go that sourcing sustainable, eco-friendly products was a must. As a 100% online business, they soon realised this included packaging for their deliveries.

Previously, Different Drop were using repurposed box material for void fill and plastic packaging tape to seal their shipping cartons, which was not allowing them to achieve their targets.

With their average order sitting at \$240, it was also important to ensure their deliveries were protected and packaged well to accurately represent the brand.

"It didn't make sense for our packaging to not align with our sustainability and brand goals. So, we started looking for a packaging supplier that would help us create an eco-friendly unboxing experience." – Brett Ketelbey, Co-founder & Director of Different Drop.

After discovering Signet at a packaging trade show, their previous solution quickly got the spit bucket. Different Drop now places their wines into a custom shipping carton, using Signet FillPak® TT Paper for void fill and seal the carton with **Reinforced Water Activated Tape (WAT)**.

Signet's FillPak® TT Paper is a 100% FSC® Certified paper that is climate neutral, recyclable and biodegradable – as well as providing excellent protection for delicate items during transit. **Signet's Reinforced Water Activated Tape** is a heavy duty kraft paper tape that is 100% recyclable and made from plant-based starch adhesives. The cross-woven filaments ensure even the heaviest cartons will stay secured during their journey.

The implementation of Signet's FillPak® and **WAT** have allowed the business to improve brand perception and alignment, become 100% eco-friendly, and level up their unboxing experience.

"Our entire packaging process is now 100% recyclable and sustainable. We also love the way our orders look now; the packaging matches the brand and has elevated our customer's experience."

Signet is proud to support Different Drop and over 60,000 other Aussie ventures.

3M VHB™ Tapes

With 40 years of proven performance, 3M™ VHB™ Tape excels in demanding applications.

These high-strength, double-sided acrylic foam tapes serve as effective alternatives to traditional fasteners like rivets and screws.

Benefits

- High-strength adhesive provides a durable bond
- Picture-perfect product designed to go unseen
- Viscoelastic dampens vibration and noise
- Instant bonding properties with no cure time required
- Protects against moisture, dirt and chemicals
- Smooth finish

Suitable Applications

- Transportation • Metal Fabrication • Electronics
- Construction • Signage • Appliances

Please note: As we cannot anticipate all situations and applications of 3M VHB Tapes, it is recommended that customers conduct their own evaluations of the use of this product. We would suggest testing the product and its outcomes prior to use.

VHB™ 4000 Series Tape

- 3M VHB 4910, 4941 and 4991 feature all-acrylic adhesive backing and conformable foam for reliable performance in harsh environments
- Excellent adhesion to aluminium, composite panels, architectural facades, glass, and medium surface energy plastics (PVC)
- Ideal for outdoor applications and bonding with painted or sealed porous surfaces like wood and concrete

PACKAGING TAPE GUIDE

With over 120 tape options to choose from, let's find out which tape is right for your business!

FIRST, CHOOSE A TAPE MATERIAL

Acrylic Tapes

- Ideal for low temperatures
- Water-based acrylic adhesive
- Ideal for sealing light to medium cartons

Signet's Own Acrylic Tape
Item No. 34647
See page 62

Hot Melt Tapes

- Reliable, long-term strength during storage and transit in regular temperatures
- Synthetic rubber adhesive provides an excellent and cost-effective alternative to natural rubber

Signet's Own Hot Melt Tape
Item No. 10704
See page 63

Rubber Tapes

- Superior holding strength for single strip carton sealing
- Natural rubber-based solvent adhesive gives consistent performance without splitting or stretching on most cardboard types

Signet's Own Rubber Tape
Item No. 10550
See page 66

WHAT DOES YOUR TAPE NEED TO DO?

Seal recycled cardboard boxes

We recommend packaging tapes with a hot melt, synthetic rubber or resin adhesive.
3M 370 Hot Melt Packaging Tape
Item No. 11283, see page 64

Seal heavy boxes

We recommend Heavy Duty (40 micron) packaging tapes with a natural rubber adhesive.
Signet's Own Heavy Duty Tape – Brown
Item No. 11410, see page 66

Ship in cold temperatures

We recommend packaging tapes made with a water-based acrylic adhesive.
tesa 4262 Acrylic Packaging Tape
Item No. 21623, see page 62

Store boxes for a long period of time

We recommend tapes with a premium grade, natural rubber-based adhesive.
Vibac PP30 Rubber Solvent Tape
Item No. 11399, see page 65

Be eco-friendly

We recommend paper-based tapes as a great eco-conscious solution.
Signet's Own Kraft Paper Tape
Item No. 46622, see pages 73–74
