The alternative to both pre-stretch film and conventional films

How does it work?

Five simple steps to apply Ultimate Film correctly.

1 Attach the film to the load and stand 250mm away.

2 Let the film unwind freely until you reach the point (before the corner) where you apply tension.

3 Hold the film parallel with the corner of the pallet before you lock it off with the palm of your hands or thumbs.

4 Stretch the film about 30–50% (feel it in the tension) before wrapping around the corner.

5 After stretching the film, step around the corner with the tension still applied to prevent puncturing or tearing. Then release and let the film unwind freely.

The advantages of Ultimate Film

- Lightweight rolls
- Less film needed per pallet wrapped
- Thinner gauge with superior strength
- Increased load integrity

ULTIMATE FILM

Ultimate Hand Film

- High performance pallet wrap that uses state-of-the-art resin technology to deliver improved performance and reliability
- Offers a more cost-effective alternative to conventional cast, blown or pre-stretch film
- Is easily hand-stretched with 30–50% tension at the stretching point
- Weighs less than conventional film and is less tiring to apply
- Uses up to 20% less film per pallet wrapped and reduces environmental impact
- Offers the same performance as higher gauge films at a significantly lower cost
- Suitable for light to medium weighted products and pallets without sharp or protruding edges
- Free roll holders with every carton

PRICE PER ROLL					SAVE 10%	SAVE 15%
Item No.	Description	Size (W × L × Gauge)	Pack Qty	1 Pack	2+ Packs	5+ Packs
21477	Ultimate Heavy Film	500mm × 320m × 14um	6	\$11.46	\$10.32	\$9.75

Methods of application

- Standard wrapping
- Banding
- Butterfly wrapping

ULTIMATE FILM

Ultimate Hand Film – Black

Item No. 21472

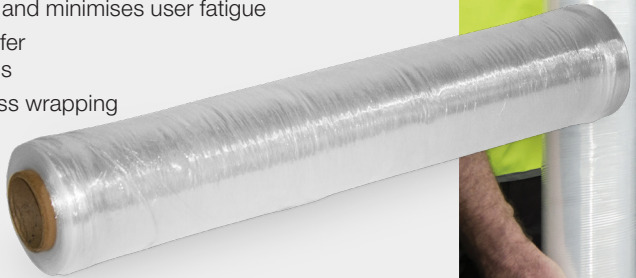

- Using Ultimate technology, this film gives the same performance as a higher gauge film, at a lower cost
- Opaque film offers protection when shipping valuable or confidential goods to prevent theft
- Size: 500mm × 400m × 11um
- Free roll holders with every carton
- 6 rolls per pack

PRICE PER ROLL	SAVE 10%	SAVE 15%

ULTIMATE FILM

Ultimate Hemmed Film

- Designed with unique reinforced edges (or hemmed edges) on both sides to prevent tearing and increase holding strength for load containment and pallet safety during transportation
- Alleviates back arching and minimises user fatigue
- Better memory with stiffer wrapping characteristics
- Thin and lightweight, less wrapping per pallet
- Free roll holders with every carton

PRICE PER ROLL

A freight charge may be applicable for delivery to other locations

PVC Shrink Film

- Excellent gloss and transparency to ensure labels and barcodes are easily identifiable during storage and transit
- High shrink at low temperature to reduce energy usage, particularly for high volume users
- Centrefold makes for more efficient handling and sealing

SeleCTech® Shrink Machinery

SeleCTech™ Combo Model – XEKL455MT

- 2-in-1 convenience
- Adjustable heat and feed conveyor settings
- Adjustable tunnel temperature and conveyor speed
- Up to 10 packs per minute

Sealing Area:
Max Film:
Power Supply:

400mm (W) x 550mm (L) x 150mm (H)
610mm x 250mm Diameter
415V, 50HZ, 3-phase

SeleCTech™ One-Step Model – XEKH455

- Seals and shrinks in one easy operation
- Mobile stand on lockable castors
- Adjustable heat setting and table height
- Dual settings – seal only or seal and shrink
- Up to 5 packs per minute

Cryovac®
Shrink Film Machines

Sealing Area:
Max Film:
Power Supply:

420mm (W) x 550mm (L) x 150mm (H)
